Since last few years, same gender dating has become secure, easy and fast, thanks to advent of so many mobile apps. However, too many options for gay apps has made it confusing for the users as you can't blindly trust every other app out there and must go with trusted and established gay apps. It's very important to know which path to walk as still people face resistance and discrimination while finding same-sex relationships.

- **Grindr: Top Gay Dating App**

Among all options present in market these days for [Gay apps](#), the best one among is Grindr. It is one of topmost trusted and secured app for males for finding their potential gay partners in a secure and easy manner.

- **Why Grindr?**

When something dominates in the market despite of presence of many other alternatives, there are more than one reasons behind that success. Few reason are as follows:

- Easy and Secure to Use

Among all gay apps present currently, Grindr is one few of those which offers a simple, secure, reliable and straight-forward approach for finding potential partners. There is a minimal chance that you will find fake profiles in this app. That's one of reasons, it's able to win trust of so many males and since its launch, it has accumulated over 5 million users worldwide.

- Privacy Respect

Whenever gays are looking for their potential partners for either casual or serious relationships, the first thing they look initially is privacy and that's the reason Grinds sits at top among all gay apps. Anyone who is looking for a gay partner, get to see very little information about other person and is assured that his own privacy is not at stake too.

- Intuitive Appeal and Universal Presence

Grindr is present on all major platforms including iOS and Android. It has a user base from over 192 countries which assures people about finding a reliable partner on this app. Any new user can see 100 profiles in free version whereas those who have opted for Grindr Xtra which is a paid service, can view up to 300 profiles at once.

If you like or don't like someone, you simply need to swipe left or right to select/deselect that guy. All this makes it easy for any new person to find like-minded guys having similar interests anytime and from anywhere in the world.

These are some of the reasons, which make Grindr one of top gay apps. You can download it for iOS and Android to get started today.

Summary: Thanks to gay dating apps and equal rights for homosexuals, it has become easy to find new gay partners online. Grindr is among the best gay dating apps present today.
