In case you or someone near to you have been arrested with drunk driving charges in Los Angeles, then the very first thing you or that person should do is to consult an experienced and competent DUI attorney Los Angeles. It's very important to work with such a DUI attorney Los Angeles who specializes in drunk driving cases and not just any other criminal lawyer. DUI laws are amongst ever-evolving and dynamic so it's very important for your lawyer to stay on top of all changes. It's very important to get appropriately represented to ensure ending up on winning note.

- **Why you need to hire an expert DUI lawyer?**

Many people aren't aware but any DUI case has two parts to it. One is based on level of impairment on defendant's side. In this failure in field sobriety tests, erratic driving or physical appearance may be testified by law enforcement officers or witnesses. The second and main important part is about chemical results. The legal limit in California for drunk driving is .08% at the time of test. If your attorney is able to prove that you were at par or below legal limit while the time of testing, it's easy to get your charges dismissed. As interpreting and analyzing results of

BAC meter is quite a complex issue, it's highly advised to leave things to a [DUI attorney Los Angeles](#) having expertise in drunk driving. Chances of charges getting refuted in the court increase many times when your attorney is able to handle your case properly.

- **Penalties in DUI cases**

DUI charges are considered at par with other criminal charges in state of California and penalties imposed are decided on various factors including number of times one has been charged with drunk driving in the past.

Penalties for first time DUI offense can be 96 hours to 6 months of jail time, \$390 to \$1000 in fines and license suspension for around 6 months. However, penalties and fines keep on increasing with every subsequent DUI charge.

# The Cost of Drunk Driving

Every year, nearly 10,000 people are killed and 173,000 injured due to alcohol-impaired drivers.

About 30% of all vehicle fatalities are tied to drunk driving.

Drunk driving crashes cost \$130 billion every year.

It's extremely important to select a lawyer who handles more than 90% cases of drunk driving only. It ensures lawyer's competence and knowledge. When you hire an attorney, who has specialization in DUI defense, it increases the chances of getting a successful outcome.
